

KINGSTON GROUP  
West Columbia, South Carolina  
USA

“ Since it was installed ten years ago in 1987, this washer has operated 16 hours a day and up to 7 days a week. The performance of this system has been satisfactory, and it has always shown qualities of reliability and endurance.

We have replaced two or three sensitive components that normally wear out, such as the level sensors and a thermostat. We have also installed a new burner on the degreasing stage.

Otherwise, the washer is operating well and does its job with *minimum maintenance*. Those parts in titanium composites – modules, drains, stairs.... - show no defects and always look good.

Newpac has been a good unit.”

Best regards,

Robert Jacoby

#### ABOUT KINGSTON GROUP

Kingston and Luzerne, Pennsylvania and West Columbia, South Carolina USA

**Founded:** 1954

**Size:** 203,000 square feet

**Number of employees:** 275
